Board Policy

Grades/Evaluation of Student Achievement

BP 5121

Students

The Governing Board believes that grades serve a valuable instructional purpose by helping students and parents/guardians understand performance expectations and identifying the student's areas of strength and those areas needing improvement. Parents/guardians and students have the right to receive course grades that represent an accurate evaluation of the student's academic performance.

(cf. 5020 - Parent Rights and Responsibilities)

(cf. 5125.2 - Withholding Grades, Diploma or Transcripts)

The Superintendent or designee shall establish a uniform grading system based on standards that apply to all students in that course and grade level. Principals and teachers shall ensure that student grades conform to this system. Teachers shall inform students and parents/guardians how student achievement will be evaluated in the classroom.

A teacher shall base a student's grades solely on the quality of the student's academic work and his/her mastery of course content based on district standards. Students shall have the opportunity to demonstrate this mastery through a variety of methods, including, but not limited to, tests, projects, portfolios, and/or class discussion as appropriate. Other elements that are not a direct measure of knowledge and understanding of course content, such as attendance, effort, student conduct, and work habits, shall not be factored into the academic grade but may be reported separately.

(cf. 6011 - Academic Standards)

(cf. 6162.5 - Student Assessment)

Whenever a student misses an assignment or assessment due to either an excused or unexcused absence, he/she shall be given full credit for subsequent satisfactory completion of the assignment or assessment.

(cf. 6154 - Homework/Makeup Work)

At all grade levels, report cards may include reports of student progress on specific academic standards applicable to the course and grade level.

When reporting student performance to parents/guardians, teachers may add narrative descriptions, observational notes, and/or samples of classroom work in order to better describe student progress in specific skills and subcategories of achievement.

A report card for a student with a disability may contain information about his/her disability, including whether that student received special education; or related services, provided that the report card informs

parents/guardians about their child's progress or level of achievement in specific classes, course content, or curriculum. However, transcripts that may be used to inform postsecondary institutions or prospective employers of the student's academic achievements shall not contain information disclosing the student's disability.

(cf. 5125 - Student Records)

(cf. 6159 - Individualized Education Program)

(cf. 6164.6 - Identification and Education Under Section 504)

A grade assigned by the teacher shall not be changed by the Board or the Superintendent except as provided by law, Board policy, or administrative regulation. (Education Code 49066)

(cf. 5125.3 - Challenging Student Records)

Grade Point Average

The Superintendent or designee shall determine the methodology to be used in calculating students' grade point averages (GPA), including the courses to be included within the GPA and whether extra grade weighting shall be applied to Advanced Placement, honors, and/or concurrent postsecondary courses.

(cf. 6141.5 - Advanced Placement)

(cf. 6172 - Gifted and Talented Student Program)

(cf. 6172.1 - Concurrent Enrollment in College Classes)
